

9th Annual International Conference on Rare & Undiagnosed Diseases

Mayo Clinic Campus, Rochester, MN.

April 9-11, 2021

Livestream hosted by Mayo Clinic, Rochester, MN

UDNI CONFERENCE & MAYO CLINIC SCIENCE SESSION

Join us to learn more about alternative omics diagnostics, genome engineering, therapeutics, novel funding models and emerging science in rare and undiagnosed diseases. This broadcast aims to continue an international collaborative effort involving rare and undiagnosed diseases organizations throughout the world. Attendees work together to facilitate data sharing and discuss recently diagnosed and undiagnosed cases evaluated by Undiagnosed Diseases Network International (UDNI) members and participants.

Review the schedule via the “Program” tab and register [online](#).

LEARNING OBJECTIVES

Upon completion of this activity, participants should be able to:

- Identify advances in alternative omics diagnostics
- Review genome engineering applications
- Discuss therapeutic advances in undiagnosed and rare disease

The business meeting on April 11th is for UDNI members and not available for credit. [Registration](#) is required, and the content is available for viewing at no cost. Additional fees apply if seeking continuing education credit. Email Nichole at Nicholas.nichole@mayo.edu if you have any questions.
